CHÂTEAU DE FONTAINEBLEAU · INSEAD MIM PRACTICUM · GROUP 11

Flamme
Bringing history to life

Leveraging Data for Marketing Science · Section E01 · 21 October 2026

Make children and schools the gateway to a broader visitor experience. Instead of only observing rooms and reading lengthy labels, visitors solve clues, collect stamps and uncover stories from the Château's history – a low-cost learning experience that makes the estate more accessible, engaging, immersive and understandable.

THE DISCOVERY MECHANIC

Thirteen stations spell the name of the place

Each station reveals one letter, with a bonus stamp in the free gardens and a Royal Explorer Certificate at the finish.

F	O	N	T	A	I	N	E	B	L	E	A	U

ACCESSIBLE
Clear, flexible routes and inclusive formats.

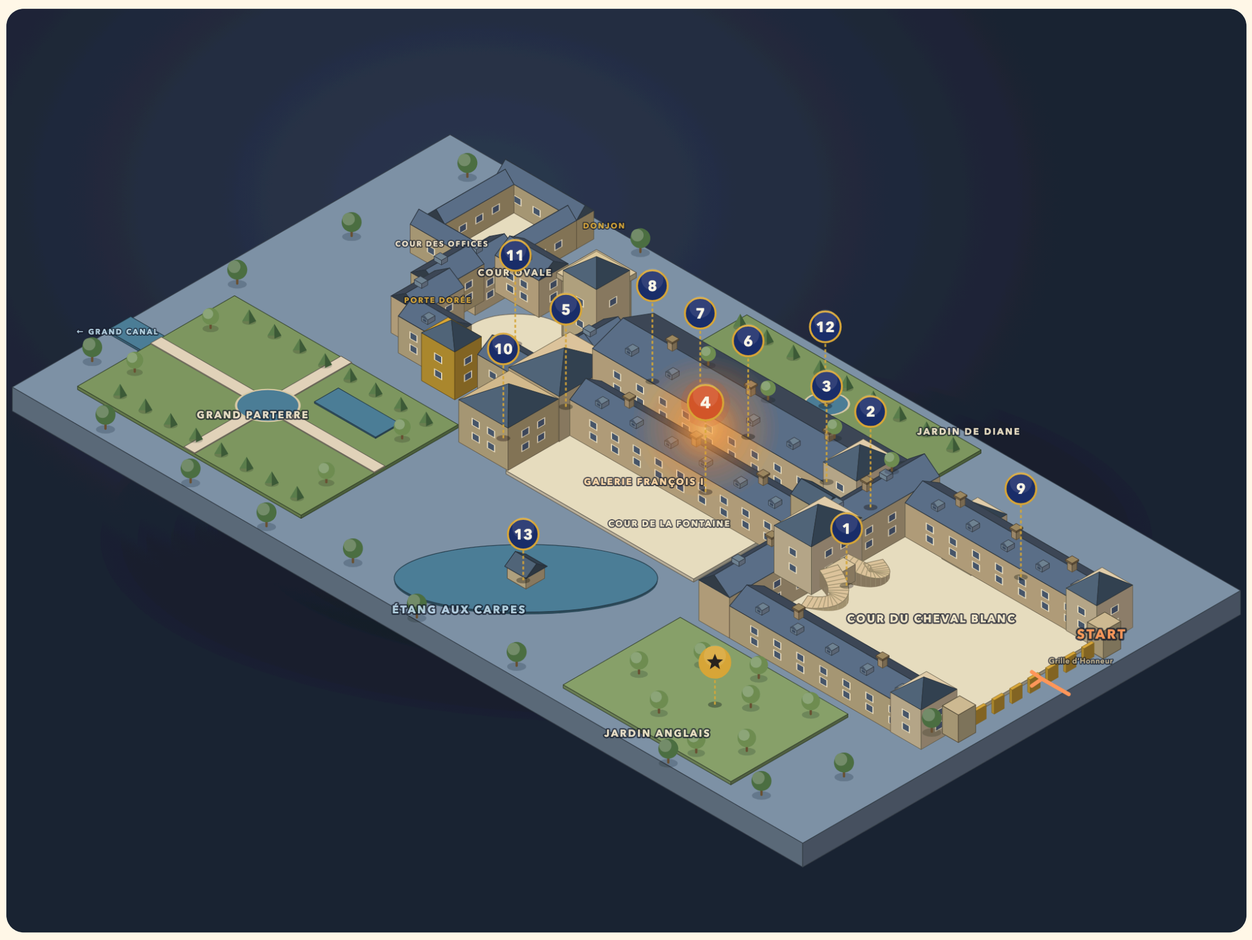

ENGAGING
Questions, stamps and challenges in each room.

IMMERSIVE
Meet royal history through stories and details.

UNDERSTANDABLE
Short, bilingual, age-adapted explanations.

RECOMMENDED SCHOOL SEGMENT

CM1, roughly ages 9–10. François I and the Renaissance create a natural curriculum link. CM2 and 5e can use adapted challenges; an older-pupil Napoleon route could follow.

THIRTEEN STATIONS · ONE BONUS STAMP IN THE FREE GARDENS

Six recommendations

One experience, from first contact to a returning family

01
School partnerships
Build recurring annual school relationships: curriculum-linked invitations, ready-to-use teacher materials, clear booking instructions and optional facilitated learning activities.

VALUE Annual cohorts, stronger school relationships and potential subsequent family visits.

02
Discovery passport
An illustrated passport at entry, with a route map, stamps, short historical stories and simple puzzles. Both print-on-request and accessible digital formats.

VALUE Better orientation, engagement and visibility of experiences that already exist.

03
Thirteen stations
Conservation-approved, low-maintenance clue points across selected rooms. Each reveals one letter of FONTAINEBLEAU; a free-garden bonus extends the adventure.

VALUE More active learning and exploration without constructing a new attraction.

04
Accessible storytelling
Replace selected text-heavy explanations with short stories: who used the room, why it matters and what to spot. French and English, age-adapted or audio.

VALUE Relevant for international visitors, first-timers and different learning needs.

05
Certificate and return
Finish with a no-purchase-required explorer certificate. School visitors take home a family invitation carrying a separate challenge and a clearly trackable ticket link.

VALUE A natural bridge from free school experiences to incremental paying family visits.

06
Measurement and learning
Track schools recruited and renewed, booklet usage, completion, visitor satisfaction, attributable return visits and net programme contribution.

VALUE Scale only activities that demonstrate visitor or financial impact.

Keeping implementation light

Pilot, prove, then scale

REUSE
Adapt existing historical content, downloadable activities and the Flamme identity.

PRINT SMART
Short print runs and a digital alternative, rather than printing for every visitor.

PROTECT HERITAGE
Removable, approved materials; no fixtures on historic walls or objects.

REDUCE STAFF LOAD
Self-service stamps, simple route signage and teacher-led group visits.

The school-to-family growth engine

An end-to-end marketing activities plan

01
Recruit
Contact a pilot group of schools and teachers; offer a clear curriculum link and ready-made information.

02
Deliver
Students complete the discovery trail on their school trip and take home their passports.

03
Refer
A take-home invitation prompts a return visit with family members, and a new challenge.

04
Renew
Schools repeat the experience with next year's cohort; track referrals and rebookings.

€6,800

in potential additional gross adult ticket receipts. 40 classes × 25 pupils × 20% family return × 2 paying adults × €17 admission = 400 additional adult tickets.

SCENARIO ONLY — NOT A FORECAST

PHASE 1
Design and pilot
Five or six stations, one short passport, five to ten school groups. Check accessibility, preservation, visitor flow and enjoyment.

PHASE 2
Improve and package
Refine the content; add teacher resources, a bilingual family invitation and simple referral tracking.

PHASE 3
Expand selectively
Scale to thirteen stations, the bonus garden stamp and more partner schools – only if pilot outcomes justify it.

The trail, station by station.
