Make Fontainebleau accessible, immersive and engaging for children, schools and international families.

Leveraging Data for Marketing Science · Section E01 · 21 October 2026

The rooms are magnificent. To a nine-year-old they are a corridor of labels. The difference is not how much children's content exists. It is that a British child receives something physical, immediately, without a reservation – and that the thing they receive gives them a reason to come back.

THREE RECOMMENDATIONS, WHERE EACH ONE HAPPENS

02 MAKE EVERY SCHOOL VISIT A REPEATABLE PARTNERSHIP HAPPENS OFF THE ESTATE

Three recommendations

Children discover it · schools book it every year · families come back

01

THE EXPERIENCE

An adventure a child can take home

Make the visit active and memorable.

1. **Welcome at entry**
2. **Discovery**
3. **Immersion**
4. **Reward and referral**
5. **Measure**

YEAR ONE **€5,578** BASE SCENARIO **€6,193**

02

THE ACQUISITION ENGINE

Make every school visit a repeatable partnership

Turn curriculum fit into recurring school relationships and paying family referrals.

1. **Prioritise CM1**
2. **Clarify the offer**
3. **Create one obvious webpage**
4. **Sell directly to teachers**
5. **Build loyalty**

YEAR ONE **€3,853** BASE SCENARIO **€6,800**

03

THE ACCESSIBILITY LAYER

Make royal history understandable without borders

Make the same experience understandable across languages and ages.

1. **Use recognisable narrators**
2. **Write short stories**
3. **Start bilingual**
4. **Design accessibility in**
5. **Drive conversion**

YEAR ONE **€2,875** BASE SCENARIO **€4,403**

KEEP IT LIGHT, TEST THE ECONOMICS

Protect conservation

No permanent alteration to historic walls. Portable points need approval, and rooms with access limits get an alternative challenge.

Protect yield

Never charge for admission that is already free, and never discount, without evidence of incremental demand.

Protect measurement

Separate source codes for school referrals, family rebookings and international landing-page sales. No ticket counted twice.

A STATION, AS A VISITOR MEETS IT

A removable stand, a numbered sign and a self-inking press. Nothing is fixed to a historic wall or object.

Pilot, measure, then scale

Observed baseline: €17 admission · 103,443 paid · 166,919 free, Jan–Sep 2026

MECHANISM	LOW	BASE	HIGH	COST
01 Stamp trail and optional paid tours	€3,473	**€6,193**	€8,913	€5,578
02 School partnerships and website	€3,400	**€6,800**	€10,200	€3,853
03 International family storytelling	€1,751	**€4,403**	€8,789	€2,875
Total	**€8,624**	**€17,396**	**€27,902**	**€12,306**

€17,396

€17,396 of additional gross receipts against €12,306 of budgeted spend, in the base scenario.

THE €5,090 DIFFERENCE IS NOT PROFIT AND NOT A RELIABLE ROI. VAT, OPERATING COSTS, ATTRIBUTION AND DISPLACEMENT ALL REMAIN UNMEASURED.

Observed €17 admission, 103,443 full-price tickets, €7.53 activity average

Illustrative allowance Booklet printing allowance of €0.60

Verified public information Existing school resources, eligible free school visits, group booking system

Unverified estimate Staff time at €25/h; station, costume, digital editing and contingency costs

Verified curriculum CM1 François I and Renaissance linkage

Hypothesis 10% and 20% return conversion; 0.25% incremental ticket benchmark; 100 paid guides
